Historically, venison was known for its strong gamy flavor, but the venison from farm-raised animals is much less gamy than the meat from hunted animals due to their consistent diet. Unlike pheasant, its meat throughout is a red dark meat (similar to duck or dark meat turkey), slightly gamy in flavor, and incredibly tender and delicious. Check with your local farmers market as well. Or it can be incorporated into elegant hors d'oeuvres—for example, braised bison short rib crostini or bison carpaccio. For real holiday showstoppers, replace beef with venison in celebratory dishes like beef Wellington or osso buco or even a straightforward venison strip loin or roast in place of beef tenderloin or pot roast. Instead of a crown pork roast, make a crown wild boar rack. At the holiday table, bison can take its place center stage in the form of a roast, stew, braise, or delicious grilled steak. How to Prepare Roast it whole or prepare the breast and legs separately. Because it is a lean meat, moisture needs to be added to the cooking process—it is prepared best using low heat to prevent it from drying out. For someone new to game meat, one of the easiest ways to get an introduction is by substituting a favorite beef dish with bison. Although very similar to cattle in its nature, farmed bison does not come with the same concerns around antibiotics (they're not routinely used); is a nutritious, sustainable substitute for beef (particularly when 100 percent grass fed), and has a unique earthy flavor with a subtly sweet finish that may convert you for good. Bison steaks, tenderloin, short ribs, stew meat, and ground meat are all ideal for swapping in place of beef. You guessed it, swap with wild boar tenderloin.
